GET ORGANIZED!

Getting your shed organized can seem like a daunting task, and it will take some time, but it really only takes 5 main steps. So, pick a free day and get organized!

- 1. Clean everything out of your shed!
- 2. Grab the trash can and start to purge what you don't need.
- 3. Create a storage floor plan. (include where each category item will go)
- 4. Add storage tools. (shelves, drawers, pegboards, etc.)
- 5. Label and fill your shed!

If you're still searching for the right shed for you then take a look at some of our most popular options! Click on each to take a virtual tour inside!

KEEP TRACK OF YOUR THINGS

When your shed is full of supplies it can be difficult to keep everything in order. But, here are some ways to keep track of it all:

1. Do you have a lot of tools?

Start hanging them on a designated wall. Then, trace around them to help you remember what item goes where.

2. Do you tend to lend items to friends and family often? Then, clearly label all of your items with your name on them. Also, if you have trouble keeping up with who has what, start keeping a clipboard of the item taken and the date/person that is using it.

3. Have a lot of stuff under one category?

Then color coordinate the tubs you use for those items. If you have a lot of Christmas decorations, place those items in green containers and halloween decorations in orange containers, etc.

4. Label Everything!

Next page has some great labeling ideas.

LABEL EVERYTHING

When your shed is full of items from different parts of your life or hobbies, it can be hard to keep up with where you've put everything. So, label everything very clearly to cut down on confusion and frustration later.

Try these labeling techniques:

- Have cabinets or drawers? Paint with chalkboard paint. Then draw or write everything that is inside.
- Use colored duct tape and then write on it with a sharpie for plastic bins.
- Print out the FREE labels on the next few pages and then attach by completely covering with clear packing tape. Each page has 4 labels so you can label multiple sides of your bin. Make sure the packing tape covers the entire label and not just a portion of it.

HAPPY ORGANIZING!
